

Drum Storage

Project: Chemical Drum Storage area

Category: Secondary Containment

Completion

Date: December 2006

Product: Duraspray

Dealer: Rhino Linings Chipping Norton

Job Description

This drum storage area needed to be protected in case of drum leakage and/or accidental spills.

Rhino Linings Duraspray, with concrete grey pigment, was applied with 24 grit aggregate added for slip resistance. The access hump and side barrier sections were then coated with Rhino Linings aliphatic topcoat (in safety yellow) for UV colourfast protection.

This application provides an easy clean, slip resistant and chemical resistant liner as well as meeting WH&S requirements for safe storage of chemicals.
