

Acid Loading Bay

Project: Protection of Acid Loading area

Category: Industrial Flooring

Completion

Date: October 2004

System: Vehicular Access Flooring System

Product: Duraspray

Job Description

This area at Bluescope Steel had problems with corrosion due to spillage during loading and unloading of hydrochloric acid. In addition there were serious OH & S issues with slip risks.

Rhino Linings Vehicular Access flooring system was used to provide an acid resistant slip resistant protective flooring system that could handle heavy vehicles and solve the OH & S issues.
