

Oil Tank Footings, Singapore

Project: Concrete protection of tank footings and perimeter bunded area.

Category: Tanks

System: Rhino Linings NSP150 Primer
Rhino Linings Ultracoat PP95

Job Description

Rhino Linings Ultracoat PP95 was chosen due to its high moisture tolerance. Singapore experiences high humidity and the jobs' substrate was prone to high moisture levels.

Spray applied, the Rhino Linings coating system produced a seamless membrane around the tank, the footings and associated pipe work.
