

Waterproofing

Project: Veale Gardens Adelaide

Category: Waterproofing/Sealing

Completion

Date: June 2009

Product: Rhino Pure Polyurea PP1195

Dealer: Adelaide Waterproofing
Rhino Approved Applicator

Job Description:

Veale Gardens in the Adelaide CBD is a well maintained facility that as losing water through ground leakage during the long drought of 2000-2009.

Adelaide Waterproofing was contracted to prepare this 1km long channel to take a shaped geotextile membrane prior to spraying and impermeable but flexible pure polyurea membrane to seal the total area.

The benefits of Rhino Pure Polyurea are:

- Manufactured in Australia
- High tensile strength
- Flexible
- Excellent elongation
- UV stable
- Extended life
