

Protection of Ute Body

Project: 4WD Body Protection

Client:

**Area
Covered:**

Completion

Date: May, 2003

System: Rhino Linings TUFF STUFF

Test

Results:

Job Description

This 4WD was being specifically modified for recreational four wheel driving. Rhino Linings TUFF STUFF was applied over the wheel arch moulds and right along the body up to the body crease. Under the wheel arches and in the back tray area are also protected with TUFF STUFF.

An aliphatic top coat coloured to match the vehicles colour was used.
