

Re Roofing with Rhino

Project: Roof Waterproofing

Category: Waterproofing

Completion

Date: October 2005

System: Rhino Linings TUFF STUFF

Before...

Job Description

This property is located in an exposed area in Wellington NZ, it was designed by a revolutionary architect, originally with a Butynol roof. It failed, and the new roof was firstly fixed down with Plywood and then sprayed with TUFF STUFF as the product has the ability to get into awkward shaped areas as well as being seamless.

After...
