
Skip Bin

Project: Bin Liner

Category: Abrasion

Product: Rhino Linings TUFF STUFF

Job Description:

These skip bins are used to transport waste building materials which have an extremely abrasive nature causing large amounts of damage and corrosion from natural elements.

Rhino Linings TUFF STUFF was applied onto the base to absorb the impact and abrasion of the waste materials, protecting it from damage and significantly prolonging the life of the skip.

Rhino Linings has a range of spray on protective linings especially suitable for hoppers, bins, trommels, harvesting machines, feed chutes and more.
