

Surface Protection - Crane

Project: Dry Hire Crane Improvement

Category: Surface Protection

Completion

Date: 2007

Product: Duraspray

Dealer: Rhino Linings Top End, Darwin, NT

Job Description

The owner of this dry hire crane basically wanted to tidy up his vehicle in order to make it easier to clean as well as offer improved protection from corrosion and pitting.

Rhino Duraspray was applied to the working surfaces for its protection properties such as abrasion resistance and corrosion protection. The seamless nature of all Rhino Linings spray applied coatings also meant that hard to get at areas were protected from further damage.

The client was very happy with the outcome, as the Rhino Linings Duraspray helped maintain the crane in an immaculate condition ready for hire.
