

Entertainment Area

After...

Project: Deck and Room
Category: Commercial Flooring
Completion Date: February 2006
System: Pedestrian Access
Product:: Duraspray & SP150

Job Description

This fourth story entertainment deck/roof consisting of an area 210m² along with a room of about 27m² on the same level was completely cleaned to remove all foreign matter then sprayed with Duraspray and top coated with anti slip added. The inside room was ground for a better key and was sprayed with Duraspray and added anti slip. SP150 Primer was used on the entire job, which was completed within 6 days

It was noted by the customer (who incidentally is an inspector for a Sydney council) that the product meets and exceeds all health food requirements.
